# THE AUDIOPHILE LIGHTING SOLUTION

Audiophiles love the UberLight™ Flex. While each of us has their favourite cleaning protocol, there has never been a reliable way to [highlight](#) the [surface dust](#) that's left on the record surface. Using the powerful and flexible UberLight™, you can easily see all the dust that remains and remove it with a cleaning brush. You'll also be able to read the dead wax on the record, [revealing](#) useful information about the pressing and the history of the recording.

Furnishing your listening room has never been easier with the UberLight™ Flex. As many audiophiles know, [sound quality](#) can be affected by mechanical vibrations. When choosing a light, you'll want something [sturdy](#) to reduce any unwanted interference. The UberLight™ Flex has a 26.5" flexible silicone gooseneck to direct your light source wherever you require, while simultaneously being unbelievably sturdy.

UBERLIGHT™ FLEX 3100TL LED  
TASK LIGHT WITH CLAMP

UBERLIGHT™ FLEX 4100TL LED  
TASK LIGHT WITH BASE

# ANYWHERE ANYTIME

## OUR MOST ADVANCED LED TASK LIGHT YET

The UberLight™ Flex's 26.5" silicone gooseneck can hold virtually [any shape](#), giving you the ability to focus your light source anywhere, anytime.

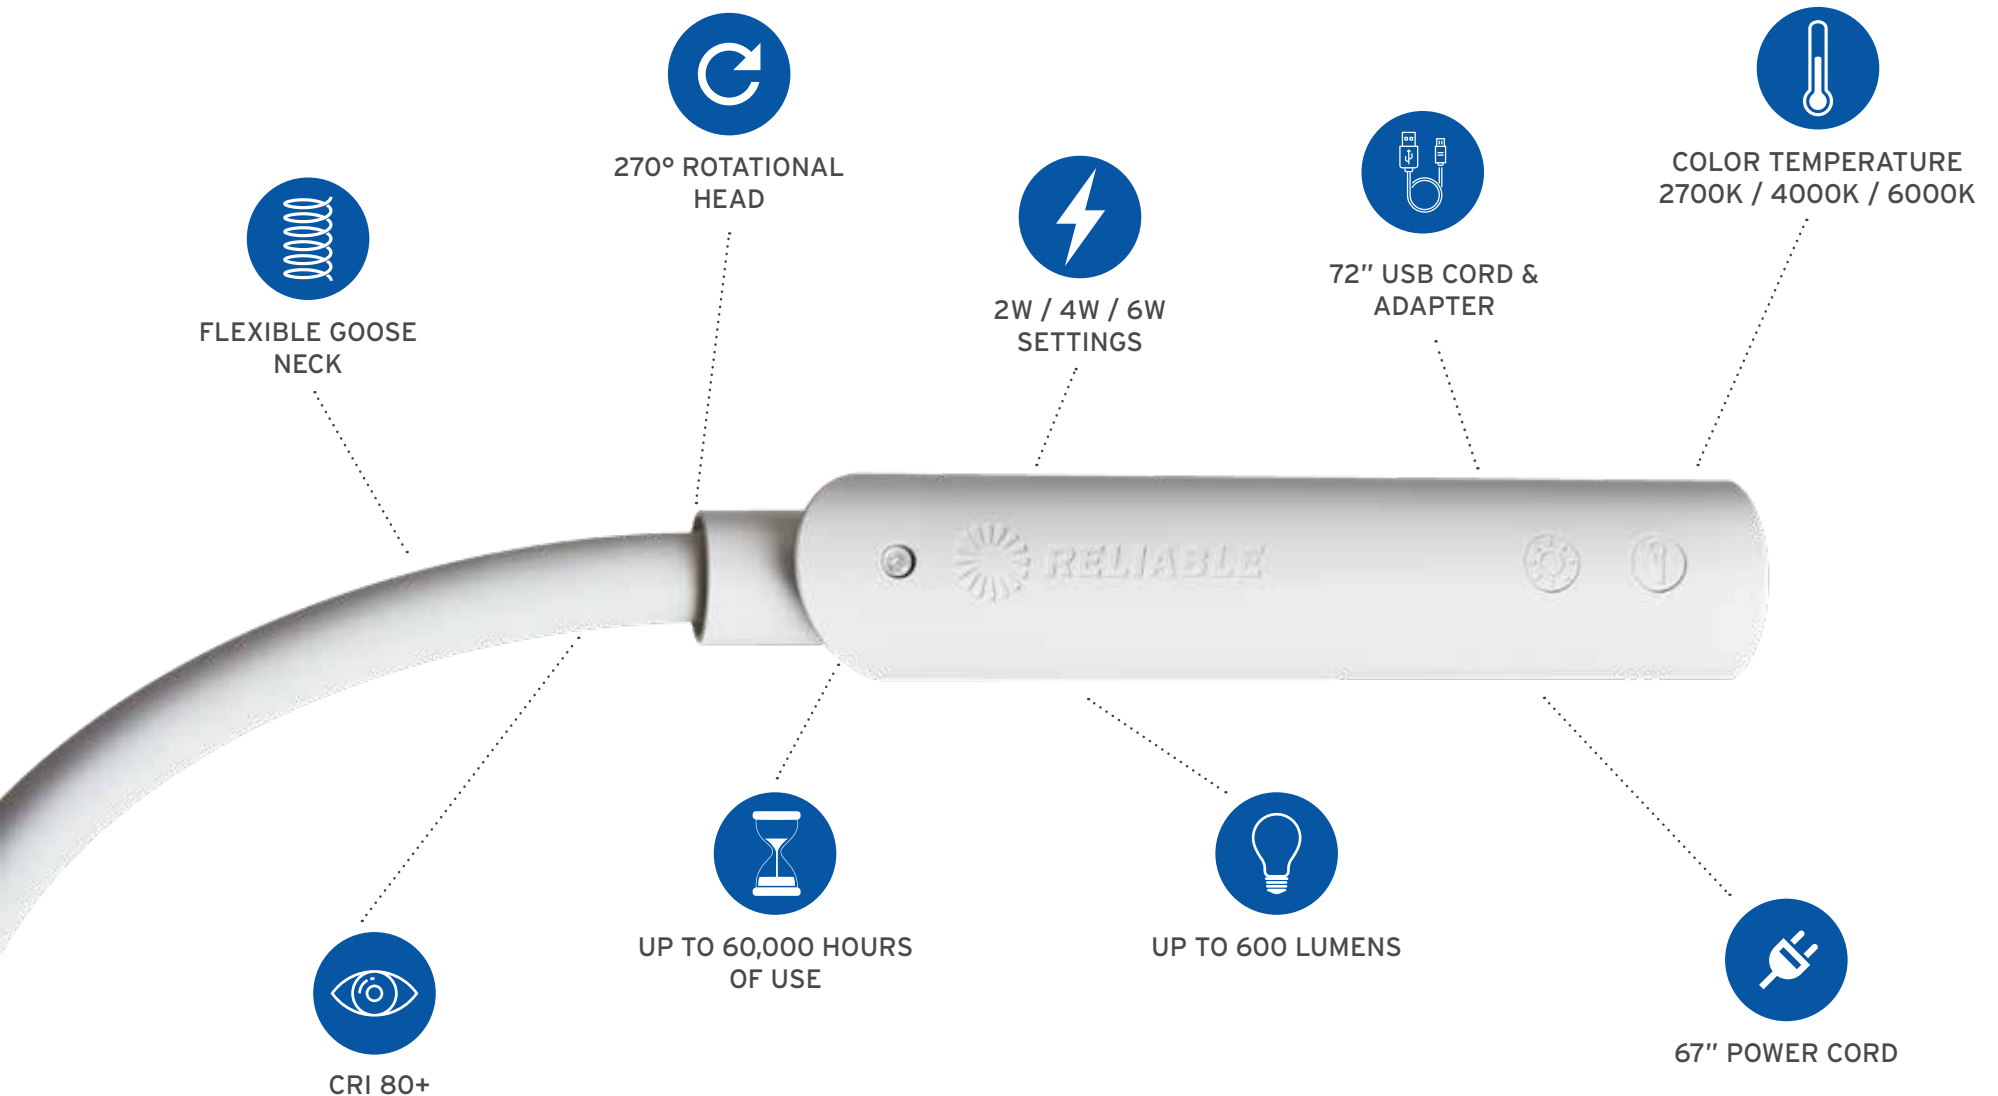

The UberLight™ Flex models are provided with a 6' USB power cord and wall adaptor, allowing you to [connect](#) your light virtually [anywhere](#). Connect your unit to any wall outlet, USB port, computer, or even portable power charger.

Whether your task is stationary or on-the-go, The UberLight™ Flex is the ultimate choice.

# VERSATILE LIGHTING SOLUTION

Loaded with great features, the UberLight™ Flex elevates the task lighting experience.

# NINE DIFFERENT LIGHT SETTINGS

The UberLight™ Flex is equipped with three coloring options and three brightness settings. Color temperatures range from:

- Warm White (2700K)
- Natural White (4000K)
- Ultra Bright (6000K)

## **WARM WHITE**

Calm & inviting. The gentlest light. Easy on the eyes. Creates a very smooth, relaxing feel. Great for overall illumination.

## **NATURAL WHITE**

Bright & vibrant. Enhances all colors equally. A popular choice for customers looking for more clarity in their light, but also don't want something too blue or too stark.

## **ULTRA BRIGHT**

Crisp & invigorating. Provides the greatest contrast among colors. Great for seeing the smallest of details.

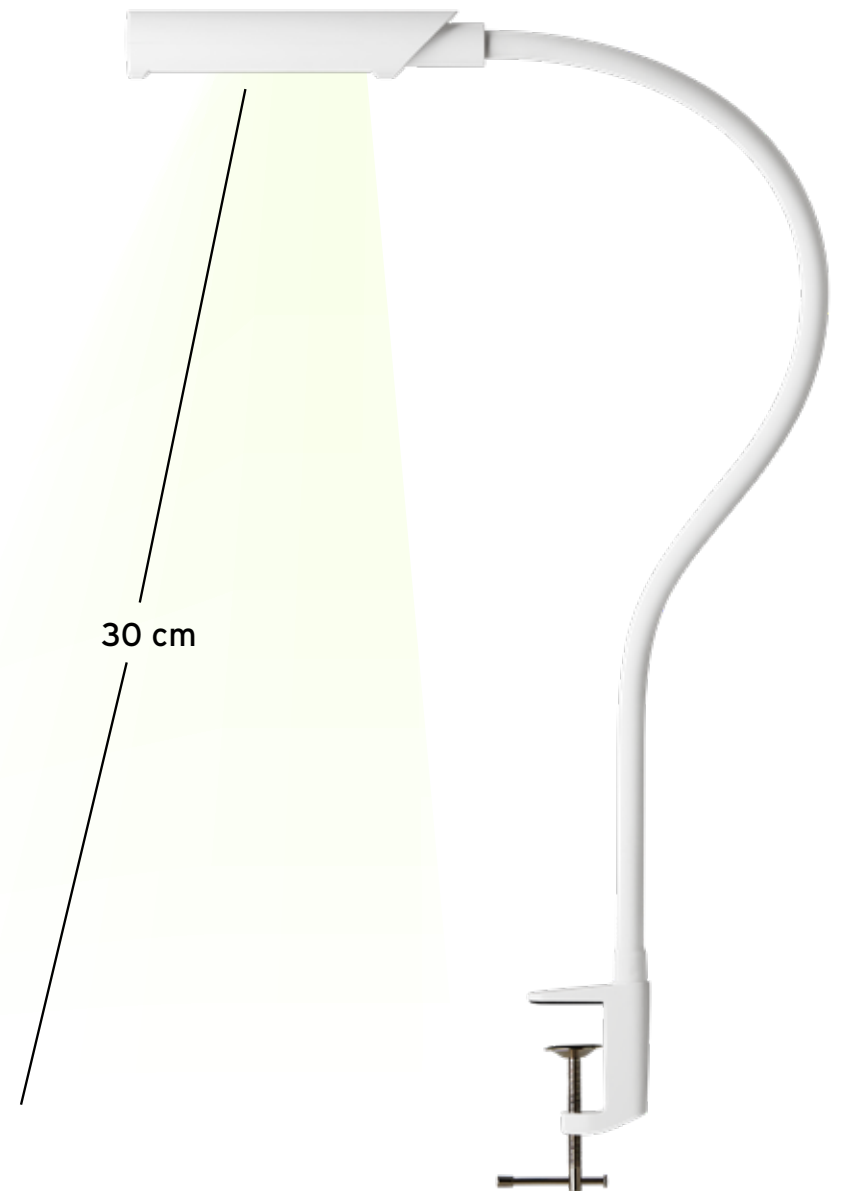

# SEE MORE ACCURATELY

Reveal more to the human eye with our highest coloring index yet. With a CRI of +80, colors will look more accurate under the UberLight™ Flex's targeted light source.

# MAXIMUM ILLUMINATION

The UberLight™ Flex provides users with maximum illumination [precisely where it is needed](#). The UberLight™ Flex has a Lux at 30CM measurement of 3500. This is especially important when it comes to choosing a task light because you want to ensure that you are getting the [appropriate light levels](#) on your desired work surface as opposed to having it dim by the time it reaches the area. For intricate tasks, or very detailed work, a lux measurement of 3500 is recommended.

# ANY SHAPE YOU CAN IMAGINE

The UberLight™ Flex can hold virtually [any shape](#) with its silicone gooseneck and 270° rotational head. The ergonomic design provides users with the [adjustability](#) and [flexibility](#) necessary to direct light source exactly where it is needed. Anywhere. Anytime.

# UBERLIGHT™ FLEX 3100TL

LED TASK LIGHT, CLAMP

The new UberLight™ Flex offers complete control. With nine total light settings and 40% more luminous efficiency, the new UberLight™ Flex delivers up to 240% more lumen power than our previous model.

The UberLight™ Flex's 26.5" silicone gooseneck can hold virtually any shape. Anywhere. Anytime. Includes USB connectivity, a power brick for portability, and a 270° rotational head for precision control.
